

GIRLS CAN CODE

Dear Girls,

NFI, having it's name across 160+ countries educated more than 20000 students across the globe and imparting automation training from last 7 years bring 'Girls can Code' mission to empower technical training among Indian girls.

This is an academic industrial collaboration initialed by Mr Arun Rawat, Past Chairman- CII HP State Council considering the need of empowering Indian girls in the automation and control domain. In 'Girls can code' mission 50% training fee will be funded by his very renowned industry - Kanha Biogenetic Laboratory.

GIRLS CAN CODE - NFI INDUSTRIAL COLLABORATION PROGRAM

50% DISCOUNT TO GIRLS

Following are the training programs which are 50% funded for girls:

BASIC INDUSTRIAL AUTOMATION SPECIALIST

Industrial Control, PLC and HMI - 60 Hours

You will learn how to wire, program and interface with PLC with sensor and actuators. Later you will learn how to monitor a process using HMI

General Training Cost 8000 INR

Training Cost for girls 4000 INR

PROFESSIONAL INDUSTRIAL AUTOMATION SPECIALIST

Industrial Control, PLC, SCADA, HMI, Drives, Pneumatics and Hydraulics - 60 Hours

You will learn interfacing of all modules via SCADA as supervisory control. This module includes high speed actuation of Servo drives in linear control system

General Training Cost 22000 INR

Training Cost for girls 11000 INR

ADVANCED INDUSTRIAL AUTOMATION SPECIALIST

Industrial Control, PLC, HMI & VFD (2-3 Months)

You will learn how to interface PLC, HMI and VFD to monitor and control motor speed, operation and direction via HMI via hardwire and MODBUS operation

General Training Cost 18000 INR

Training Cost for girls 9000 INR

HAVING LOTS OF QUESTIONS ?

How to fund this mission?
How to register for training?
